

OUR CITY FOREST

DIY Bird Feeder Activity

Introduction:

Make a recycled bird feeder using all compostable materials! Keep a notebook on what species of birds this feeder attracts, and share it with others!

Materials:

- Toilet paper roll/paper towel roll
- Scissors
- Knife
- Ribbon / string
- Nut butter (can use sunflower seed butter in case of nut allergy)
- Sunflower seeds/bread crumbs

Step 1:

- Take toilet paper roll
- Puncture small hole through one side of the roll using scissors

Step 2:

- Take ribbon and loop through hole
- Tie ribbon at top, creating a loop

Step 3:

- Take nut or sunflower seed butter and smear on all sides of toilet paper roll

Step 4:

- Sprinkle sunflower seeds or bread crumbs onto the nut butter

Step 5:

- Hang bird feeder on a tree branch in your backyard or neighborhood!
